BODY CARE EXPERIENCE

For Your Body + Mind

Cuccio™ presents Cuccio Botanicals Body Care. Botanicals is a collection of products crafted with natural plant-based ingredients, carefully chosen for their multitude of benefits to the skin and body. Our goal is to help you reconnect with the captivating beauty of nature and experience its calming effects through our products.

For over 40 years, Cuccio™ is known as the beauty industry's brand of choice for luxury spa and beauty products and one of the largest beauty product manufacturers. Our products are sustainably crafted with clean ingredients and manufactured in a solar-panelled laboratory located in Los Angeles, CA.

Botanicals is inspired by the harmonious shapes, patterns, colors, and natural fragrances found in nature. Whether it's the exquisite allure of flowers, the majestic presence of mountains, the healing power of herbs, or the rejuvenating essence of oceans, we aim to capture the inherent beauty of natural landscapes that evoke a sense of tranquility, mindfulness, and wonder.

Our products are designed to help moisturize, soothe, protect, and rejuvenate the skin, enabling it to achieve a healthier, more radiant appearance. Key botanical ingredients such as Chamomile, Lavender, Rose, Aloe Vera, and Rosemary, among others, are carefully incorporated into our formulations. The Botanicals collection emerges as an ideal choice for those seeking a more natural, effective and gentle body care experience.

Nature holds boundless beauty and Cuccio™ is delighted to introduce you to the transformative world of Botanicals. Experience the wonders of nature and indulge in our eco-friendly body care products that help nourish your body, elevate your senses and release stress

## BODY CARE EXPERIENCE

Introducing Danielle Cuccio, the CEO/Founder of Cuccio Somatology™ and co-owner of Cuccio™ Beauty Brands. Cuccio Beauty being known in the beauty industry for over 40 years, Celebrity Yoga Instructor and Licensed Esthetician, Danielle Cuccio recognized the importance of achieving balance in both personal and professional life and how it contributes to overall health and overall radiance. This realization inspired her to create Cuccio Somatology and Botanicals, a comprehensive approach to body wellness and self-care.

Cuccio Somatology™ has become one of the fastest-growing women-led beauty businesses with a global presence in over 120 countries. Her vision is to continuously introduce innovative self-care products to people's homes and shape the principles of the modern Wellness category.

At Cuccio™, the belief is that true beauty originates from within. Having served over 1 million customers, ensuring the highest quality of their products. Cuccio™ recognizes that humans are multi-faceted beings consisting of body, mind and spirit and that beauty is derived from making choices that nurture all three aspects on a daily basis. Cuccio's purpose is to continue to bring calm and self care to people worldwide.
